Languages & Tech

ReactJS | Modern Javascript | Tailwind | Bootstrap 5.0 | Git | Html5 | CSS3 | Python 3.9 | C/C++

Projects

- **Ema-John ([Git Repo](#) | [Live Link](#)) e-commerce website** where someone can shop their desired products online. Website made using **ReactJS** , **Javascript** , Local Storage. While doing this project I have learnt about React Components, React States, React Router, handling local Storage etc.
 - **Choose Favorite Players ([Git Repo](#) | [Live Link](#)) fantasy team website** where one can choose your fantasy team. Made using HTML5, **Tailwind**, **Javascript** with **DOM** manipulation. Practicing this one I have gone through learning the Javascript DOM concept in detail.
 - **Marbel Production ([Git Repo](#) | [Live Link](#)) movie website** for watching favorite movies online. Made using pure HTML5 and **Tailwind**.
 - **Facebook Image Scraper ([Git Repo](#))**: Scrapping all the information from a web page using **Python** with **Selenium** and **Beautiful Soup** separately.
-

Professional Development

- Certification courses from COURSERA on [Python by Google](#) | [Python Data Structures](#) by University of Michigan | [Introduction to AI, ML & DL](#) by DeepLearning.AI, [Convolutional Neural Network](#) by DeepLearning.AI
-

Education

BSc in **Computer Science and Telecommunication Engineering** | CGPA : 3.14/4.00
Noakhali Science and Technology University (January 2017 - March 2022)

Extra Curricular Activities

- ❖ Love to play **Chess**, **Cricket**, listen to various types of music and sing a little bit.
- ❖ Have arranged and contributed to the Inter Dept **Programming Contests** in university.
